

Becas de Excelencia - Engineering

Ref.190907 - 12/12/2024 - Comarca Barcelonès

Funcions i requisits de la vacant

There is a belief that only from Silicon Valley you can create technology companies of global reference and that the best career opportunities are outside our borders. But we were born with the opposite belief: Spain has the best talent and from Spain you can create the world leader of an entire industry, that's why the 'Beca de Excelencia' in Engineering was born, to support and retain national talent.

Our goal is to offer students the opportunity to start a professional career in a technology company, with a team of international professionals, with an entrepreneurial spirit and leaders in their respective fields. We have highly qualified teams in all areas: software, product, data science, operations, growth, or expansion are just some examples.

What do we offer?

6 months, extendable for another 6 months and permanent contract at the end if both parties are satisfied (Up to 24,000€ per year).

Compatible with other university scholarships of excellence

English classes

The first 6 months will be face-to-face at our offices in Madrid or Barcelona

40% discount on all our plans

Who are we looking for?

Requirements to apply for the Beca de Excelencia:

You are a recent graduate or are in your final year of any engineering degree.

You have an excellent track record and are in the top 10% of your graduating class

You are interested in developing your professional career in software development and technological solutions.

You believe you have the necessary skills to work in a high performance team.
